1. SAMPLING AND SAMPLE PROFILE

For the year 2017 the Broadcasting Authority made arrangements with the N.S.O. so that data is collected for one month within a specific quarter. During this year data will be collected during the months of February, July and October 2017.

For these three assessments, the telephone questionnaire was changed. The perpetual questions “Which 3 radio stations did you listen to most yesterday?” and “Which 3 TV stations did you follow most yesterday?” were maintained as these indicate radio listening and TV following patterns of the local population. Each respondent has the facility of naming three different broadcasting stations for three different time spans throughout the day.

Previously respondents were asked which their three most favourite television programmes were. This was not done to identify the most favourite programme even if it was not watched the day before the interview but to find out what kind of programmes viewers were more likely to follow. In fact, the list of programmes that were named was classified according to their genre and the results showed what the programme genres that local media consumers preferred were.

For this period, respondents were directly asked what type of programmes they like to watch on local television stations. A list of eleven options was read out and respondents were asked whether they liked or not to watch each programme genre.

Another area which the Authority wanted to research is what type of service respondents have to watch television in view of the introduction of IPTV [television content through Internet], Android boxes, and Netflix [Internet based services]. Similarly for radio, respondents were asked whether they have DAB+ to follow radio programmes; if yes, do they use their DAB+ radio to follow local stations only and/or to follow foreign radio stations. Interviewers were instructed that they were to clarify this question by asking whether

the respondent could easily change from one station to the other without any frequency interference; with DAB respondents never had to remember the station’s frequency; the display on the radio-set shows the station names alphabetically; and whether respondents had more stations to choose from beside local broadcasting stations.

The demographics of the population were also changed. Previously any 12 year old and above could be identified by the N.S.O. From this assessment 12 to 15 year olds were left out from the required sample and any 16 year old and above could be selected to participate.

Since children were being left out from the demographics, respondents were asked whether they had any children between 9 and 15 years and what type of programme their children liked to follow. These respondents had the option to specify three types of programmes.

As in previous audience assessments, the N.S.O. selected the sample, administered the survey and collected the data. Data was collected continuously by means of telephone interviewing conducted by National Statistics Office interviewers who were instructed to make interviews between 04:00pm – 08:00pm on weekdays and between 09:00am – 1:00pm on weekends, and were instructed to callback individuals up to 3 times before interviewing the next person in their list. This is mainly required to avoid any bias that could be introduced between the actual demographics of interviewed people and the desired sample.

For this assessment data was collected between Saturday 1st and Monday 31st July, both days included. A total of forty daily questionnaires were compiled giving a total sample of 1,240 respondents.

For July 2017, 37.23% of all contacted persons accepted to participate while 3.45% refused. The eldest person contacted was 95 years old while the youngest were 16 year olds. Ineligible are those persons who, although selected, were not living in a household at the time of contact.

For this data-set a response rate of 37.23%, an estimated population size of 374,782 [aged 16 years and over], and a 95% confidence level, the sample of 1,240 interviewees has a margin of error of $\pm 2.69\%$.

The data collected was subsequently weighted to represent the required demographical sample by gender, by age group and by district to be representative of the whole population.

2. RADIO AUDIENCE ASSESSMENT

2.1. Radio Audience Reach

The first estimation is what is termed as **radio audience reach**. This gives the amount of people who had followed at least one radio station at any time during the day without taking into consideration the amount of time which they had spent listening to that station.

During July 2017, 47.6% stated that they had listened to radio the day before the interview while 52.4% categorically stated that they had not listened to radio the previous day. This means that as much as 178,000 persons aged

16 or over followed at least one radio station the previous day. On the other hand 33 respondents [≈9,600; 2.0%] replied that they do not have a radio set.

Compared to previous data, there was a decrease of 5% of radio listeners over the previous assessment period of February 2017, and more significantly there was a decrease of 3.2% over the equivalent period last year (July 2016) - see below

Radio Audience Reach

On Average 178,000 persons (47.6%) aged 16 and over followed at least one radio station during July 2017

	Total N	Yes ^[1] N	No N	No Ans. N	Total %	Yes %	No %	No Ans. %

^[1] Includes those who "did not remember which station they followed" [2.1%; ≈7,900] and those who "did not follow any particular radio station" [2.5%; ≈9,400].

Respondents were given the possibility of naming up to three radio stations which they had listened to the day before. Out of a total of 1,240 respondents, 66 listeners named a second station while another seven respondents named a third radio station. This discloses the trend that in general radio listeners tend to follow a particular radio station. All these responses were analyzed by broadcasting station and by demographics - see table below:

with 10.77% [≈22,000]. Bay Radio was the most followed station by all those under fifty years old – with just less than half [43.67%] of 16-30 year olds following this station. ONE Radio, on the other hand, was the most followed station by all those over fifty years old – with just below a quarter [24.52%] of all 51-70 year olds and just about a third of all 70+ year olds [32.04%] following this station.

Bay Radio has attracted the largest amount of radio listeners [20.57%] with ≈38,000 listeners. This station was followed by ONE Radio with 17.32% of all listeners [≈32,000] and Vibe FM

with 10.77% [≈22,000]. Bay Radio was the most followed station in four of the districts while ONE Radio was the most followed station in the South Harbour and in the South Eastern district.

Based on Radio Listeners including those who could identify more than one station but excluding all those who could not identify a station and/or could not remember.

2.2. "DAB+"

Respondents were asked whether they have a *DAB+* radio-set to listen to radio. Interviewers were instructed to explain that with a *DAB+* radio-set the signal will either be brilliantly crisp and clear or it won't be there at all; and with *DAB+* radio-set listeners will never have to remember a station's frequency while the display on the radio shows the station names in alphabetical order.

Only 3.5% of the respondents did not know what kind of radio-set they had to listen to stations. As much as 80.5% of the population replied that they do not have a *DAB+* radio-set; while only 13.1% stated that they have a *DAB+* radio-set. Another 0.4% of respondents did not reply while a further 2.6% stated that they do not listen to radio as they do not have a radio-set.

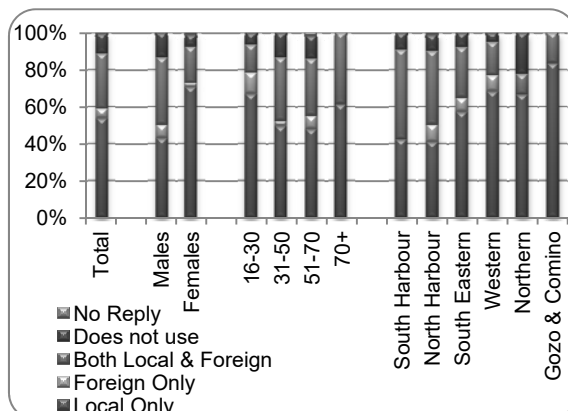

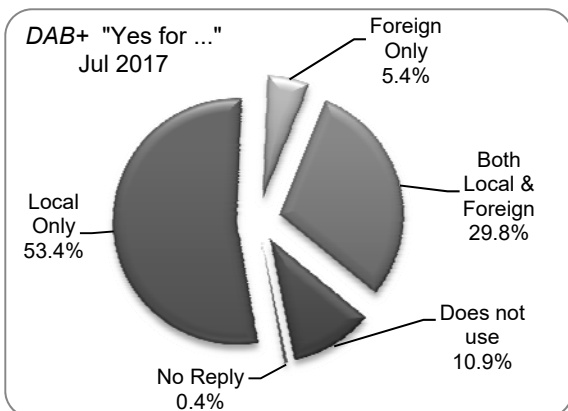

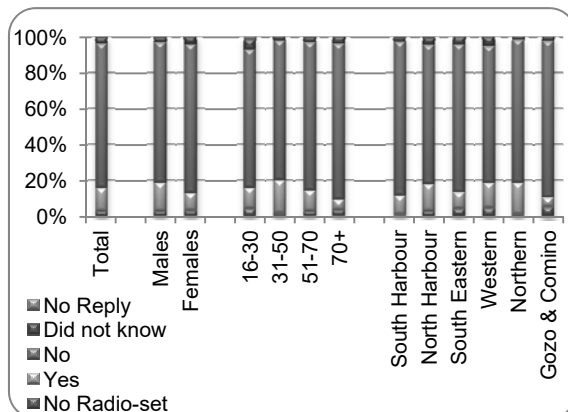

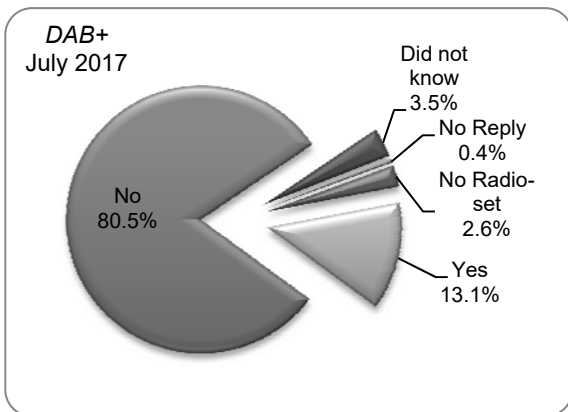

Just more than half [53.4%] of those who stated that they have a *DAB+* radio-set replied that they only listen to local stations; another 5.4% they use their *DAB+* radio-set to listen to only foreign stations; while 29.8% stated that they listen to both local and foreign stations

broadcasting on this platform. A further 10.9% stated that although they have the availability of a *DAB+* radio-set they do not use this set.

Without taking into consideration the time spent by each radio listener, the percentage of those who stated that they had a *DAB+* radio-set was analysed against the radio reach of each radio station.

The highest amount of radio listeners using a *DAB+* radio-set were those of Bay Radio [≈6,900 – 18.7% of that station's reach]. These were closely followed by ONE Radio listeners [≈4,400 – 14.1%]; those listening to a foreign station [≈3,800 – 70.5%]; and those who listened to more than one station [≈2,400 – 25.9%].

The highest percentage of listeners making use of a *DAB+* radio-set were those following a foreign station [70.5%] of all those listeners; followed by those of XFM where just more than a third of its listeners [34.5% – ≈2,330 listeners] follow that station on the *DAB+*.

2.3. Radio Audience Shares

Respondents were asked to indicate at what time they had listened to radio, which station they had followed, and for how long. Each participant had the possibility of naming three stations and for each station was able to identify three different time periods. These replies were analyzed by half-hour slots; for each radio station; and for all the days of the week while also taking into consideration all the multiple replies received.

2.3.1. Average Audiences

The first analysis is that of calculating the average audience share of each radio station

for each week-day. This is the average of all the audiences for each particular station by half-hour slot.

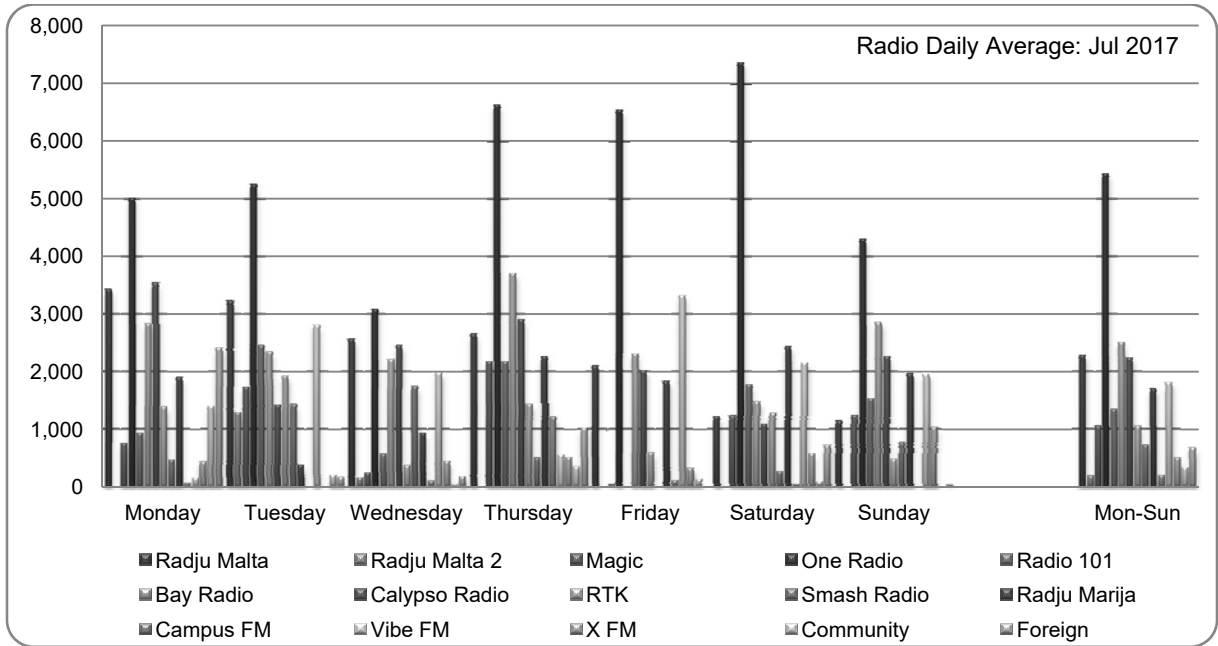

ONE Radio attained the highest total weekly average amongst all stations with 1.376% followed by Bay Radio [0.635%] and Radju Malta [0.579%]. ONE Radio had the highest average amongst all stations for all the weekdays - with that of Saturdays (1.890%) being its highest average. Bay Radio had the highest average on Thursdays (0.603%), while Radju Malta had its highest average on Mondays (0.871%).

2.3.2. Peak Audiences

Another indication of a radio station's popularity with its audiences is its highest amount of audiences obtained at any particular half-hour slot of each weekday.

Taking the highest peak for each station, Bay Radio had the highest peak amongst all stations on Mondays with 5.633%; on Wednesdays with 3.559%; and on Thursdays with 4.904%.

ONE Radio had the highest peak amongst all stations on Saturdays with 5.578%; on Tuesdays with 4.005% and on Sundays with 4.037%.

Radju Malta had the highest peak amongst all stations on Fridays with 4.760%.

2.3.3. Radio Audience Shares by Half-hour Slots

Audiences were **not** registered for all the half-hour slots. Before 6:00am audiences were minimal throughout the week [$<2.0\%$] and overall increased from 3.729% at 6:00am to 12.094% at 7:00am. Audiences peaked at 8:00am at 13.823% and again at 9:00am with 16.610% of potential listeners. This level of radio listening was maintained till 11:30am [15.185%]. Audiences rapidly decreased to

7.061% at 1:00pm and then gradually decreasing while slightly peaking to 6.741% at 5:00pm. Audiences then gradually decreased to 2.366% at 8:00pm. Night-time radio audiences after 10:00pm were about 1.5% of the total population.

The following figure maps the total daily audience shares for radio stations cumulative at half-hour slots:

2.3.4. Daily Average Hours of Radio Consumption

This average gives the amount of time that each radio listener has spent following each radio station. This is derived from the total number of hours that radio consumers listened to, divided by the total number of listeners of each broadcasting station.

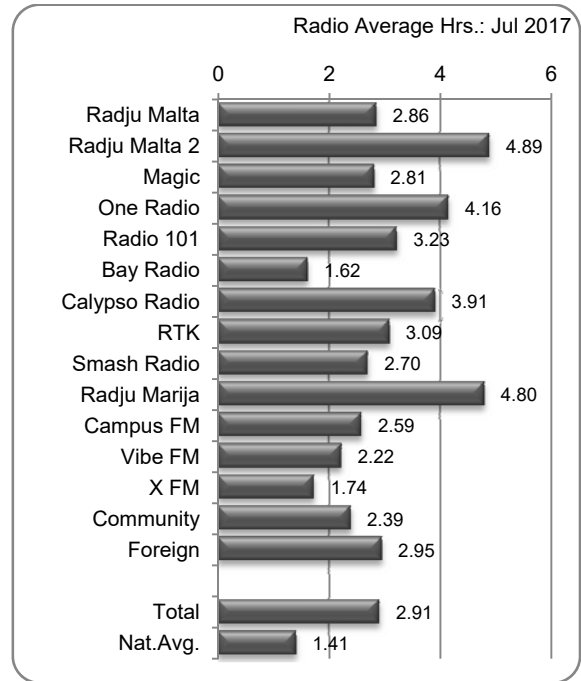

This average is susceptible to outliers especially where broadcasting stations have registered a small amount of listeners who logged on to that particular station for long time-spans. However, considering also the demographical nature of radio listeners for each particular station, the average amount of time spent by listeners of each station gives an indication of radio listening patterns amongst the population.

Although Bay Radio attracted the highest amount of listeners [20.57%] these listeners were mostly below 50 years old. In fact Bay Radio attracted just less than half of 16-30 year olds [43.67%] and about one-third of all 31-50 year olds [32.60%]. Their total average hours of radio listening worked out at 1.62 hrs each listener for July 2017.

On the other hand, ONE Radio attracted the second highest amount of listeners [17.32%] who, on average, have spent 4.16 hrs listening to this station. And this station attracted nearly a quarter of all 51-70 year olds [24.52%] and nearly a third of all 70+ listeners [32.04%].

The highest average of hours spent was attained by Radju Malta 2 which ranked 15th by radio reach of all radio stations [0.51%] at 4.61hrs per radio listener.

The average amount of hours over all radio listeners results to 2.91 hrs per listener and over the whole of the population aged 16 years and over, amounts to 1.41 hrs.

Compared to previous assessments, the amount of hours spent listening to radio has decreased by 15½ minutes over the previous assessment of February this year while during the previous years there was an increase in the amount of hours spent – from February to July 2016 there was an increase of 33 minutes while from February to July 2015 there was an increase of just 3 minutes.

2.3.5. Radio Stations Audience Share

Taking all the audiences for all the weekdays, the daily average radio audience share attained by each broadcasting station is shown in the figure below.

Overall, ONE Radio ranked first with 24.72% of all audiences, followed by Bay Radio [11.41%]; Radju Malta [10.39%]; Calypso Radio [10.18%]; Vibe FM [8.22%]; Radju Marija [7.72%]; and Radio 101 [6.10%].

3. TV AUDIENCE ASSESSMENT

3.1. TV Audience Reach

Similar to radio assessment, the first estimation is the amount of people who had followed at least one TV station at any time during the day without taking into consideration the amount of time which they had spent following that particular station.

During July, 51.0% of respondents stated that they had watched television the day before the interview. This was 17.4% higher than that registered during the previous assessment of February 2017 [68.3%] and was 1.3% higher than that registered for the same period last

year [July 2017: 49.7%]. This means that a total of 191,000 persons aged 16 or over, followed at least one TV station – see below.

Respondents were given the possibility of naming up to three TV stations which they had watched the day before the interview. Out of a total of 1,240 respondents, 276 viewers named a second station while another 89 respondents named a third TV station. All these responses were analyzed by broadcasting station and by demographics – see table below.

TV Audience Reach

On average 191,000 persons (49.0%) aged 16 or over followed at least one TV station during February 2017

		N				%

Based on TV Viewers including those who could identify at least one station but excluding all those who could not identify a station and/or could not remember.

Includes:

^[1] RAI: Rai 1 / Rai 2 / Rai 3 / Rai News 24 / Rai Scuola / Rai Storia

^[2] Mediaset: Rete 4/ Canale 5 / Italia 1 / Italia 2 / Iris / Mediaset Italia / Mediaset Extra / La5 / Mediaset TGCom24

^[3] BBC: BBC 1 / BBC2 / BBC 3 / BBC 4 / BBC News / BBC Prime / BBC World News / BBC Kids / BBC Entertainment

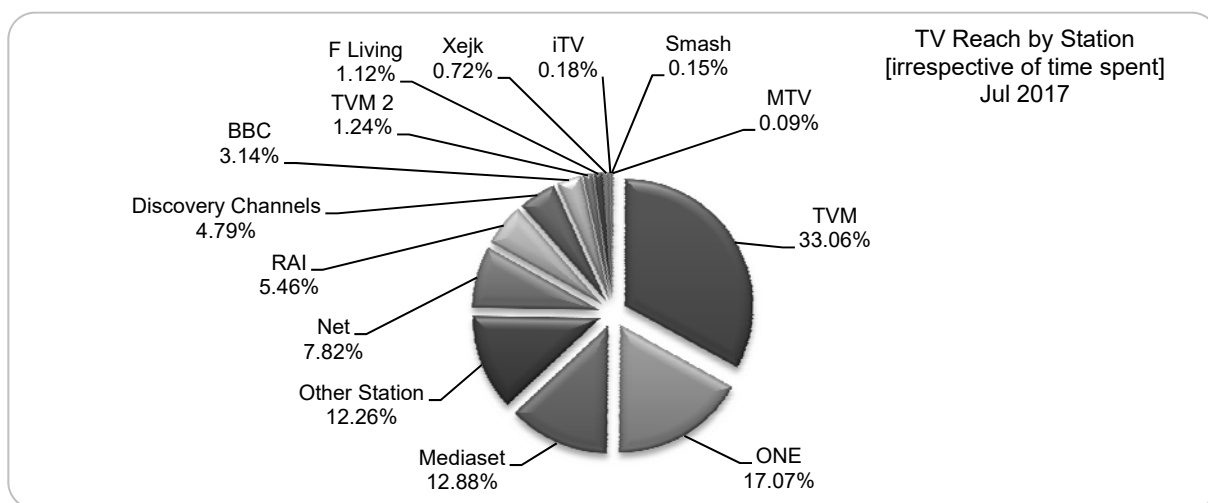

^[4] Discovery Channels: Discovery Channel / Discovery Family7 / Discovery Science / Discovery Kids / TLC / Animal Planet

TVM has attracted the largest amount of TV-viewers [33.06%] with approximately 189,000 viewers. This station was followed by ONE with 17.07% and Net TV with 7.82% - excluding those following Mediaset stations [12.88%] and "other station" [12.26%].

Overall, while 61.37% of the viewers followed local stations, only just more than a third of the population [38.63%] watched a foreign station - with Mediaset stations [12.88%], RAI [5.46%] and Discovery Channels [4.79%] being the

most followed foreign stations. Of the local stations, only TVM, ONE, and Net TV had audiences from all the demographical groups.

By demographics the same trend in ranking follows; however it is evident that the viewing of local stations is higher with 16-30 year olds and with those over the age of 50 years and older. On the other hand the viewing of foreign stations is higher with those from 31-50 year olds.

3.2. TV Services

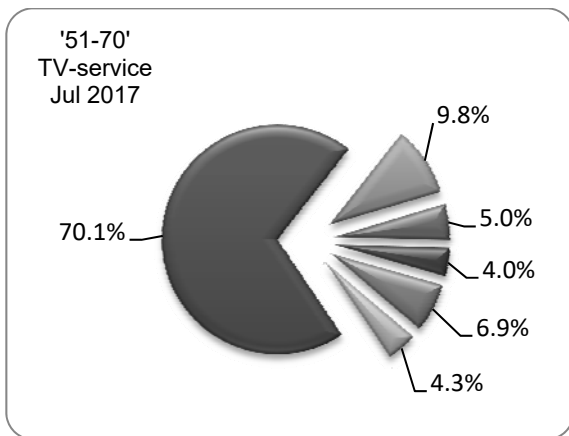

Respondents were asked what type of service they have to watch television. Six options were read out by interviewers.

The most common service for watching television is that of a paid subscription [91.5%]; followed by Internet based services [17.0%]; IPTV streaming [8.2%]; and Satellite [7.8%]. Another 12.0% of the population follow television programmes through laptop, mobile, or tablet streaming.

Only 4.5% of the population follows television on the Free-to-air platform. Of this group, 43.1% [≈7,200] have an only Free-to-air connection while the rest [56.9%; ≈9,600] makes use of one or more of the services available.

More types of television services are used by those of the 16-30 age group [159.60%] while the lowest was that amongst usage is that of the 70+ age group. While just half of the 16-30 age group [56.65%] make use of free-to-air services, as much as 83.56% have this facility.

3.3. TV Programme Genres

Respondents were asked what type of programme they like to watch on local television. A list of eleven categories were read out by the interviewer and respondents declared their preference to that category or not.

Local & Foreign News were the most favorite programme genre [63.0%]. Local Drama programmes ranked second [43.4%] while Discussion & Current Affairs programmes ranked third [25.8%]. Documentaries ranked fourth [18.9%] and these were closely followed by Sports programmes [17.8%].

Each of the other categories named by interviewers were as follows:

Cultural / Educative	– 15.4%
Light Entertainment	– 15.1%
Music Videos	– 7.4%
Religious	– 7.1%
Teleshopping	– 5.7%
Children's	– 2.7%

When analysed by gender, while male preferences exceeded those of females in three categories [Sports (+23.4%); Documentaries (5.4%); and Local & Foreign News (+3.2%)]; female preferences exceed those of males in Drama (+26.6%); Light Entertainment (+10.8%); Religious programmes (+6.0%), Teleshopping [+5.4%], and Music Videos (+4.5%).

There was very little gender difference for Discussion programmes (+1.1%); Cultural/Educational programmes (1.4%); and Children's programmes (+0.2%).

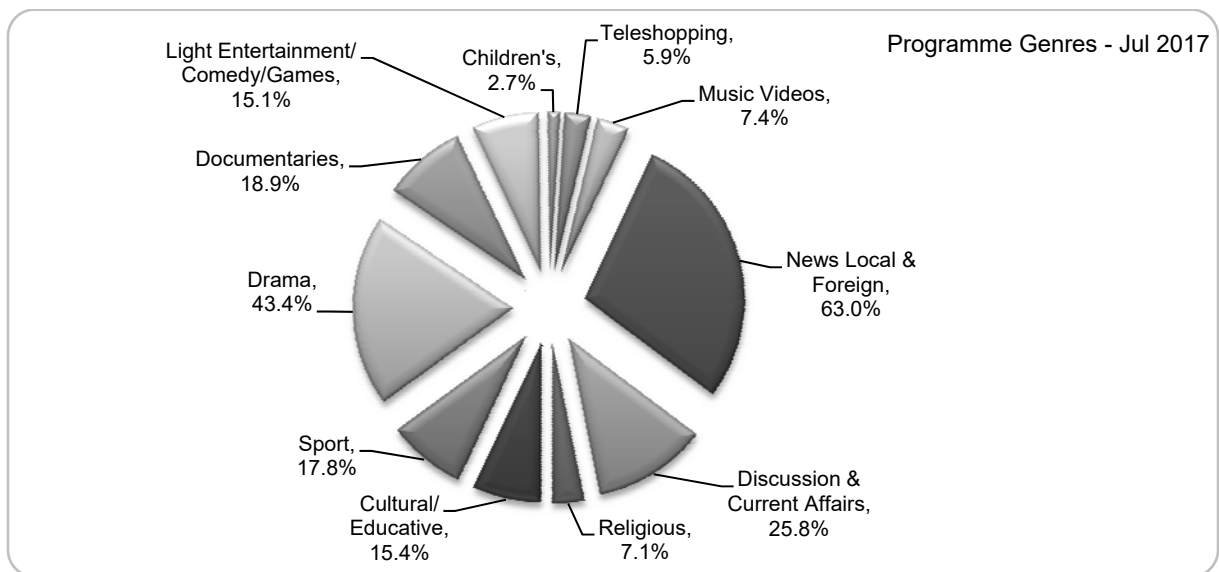

Analysed by age-groups, the highest three programme genres still had the same ranking throughout but with marked percentage differences. The first preference of 16-30 year olds is for Drama Programmes (43.6%) closely followed by that for Local & Foreign News (41.2%) which is about two-thirds (63.0%) of all the preferences for the latter programme genre.

Local & Foreign News were the first preference of all those over 30 years old and increases gradually from 59.3% of all 31-50 year olds, to 76.7% of all 51-70 year olds, and to 75.6% of all 71+ year olds.

Drama was the most preferred programme genre for all 16-30 year olds and the second most preferred genre for all 31+ year olds.

Sports programmes were the third most preferred genre for 16-30 year olds while the third most preferred genre were discussion programmes for all 31+ year olds.

Overall, programme genre preferences increase with age. The highest noticeable increase was that of Religious programmes which increased from 0.4% of all 16-30 year olds to 18.6% of all 70+ year olds. Programme preferences also increases with age for Light Entertainment programmes, Teleshopping, and Music Videos; while the preferences of all other programme genres decreased for 70+ year olds.

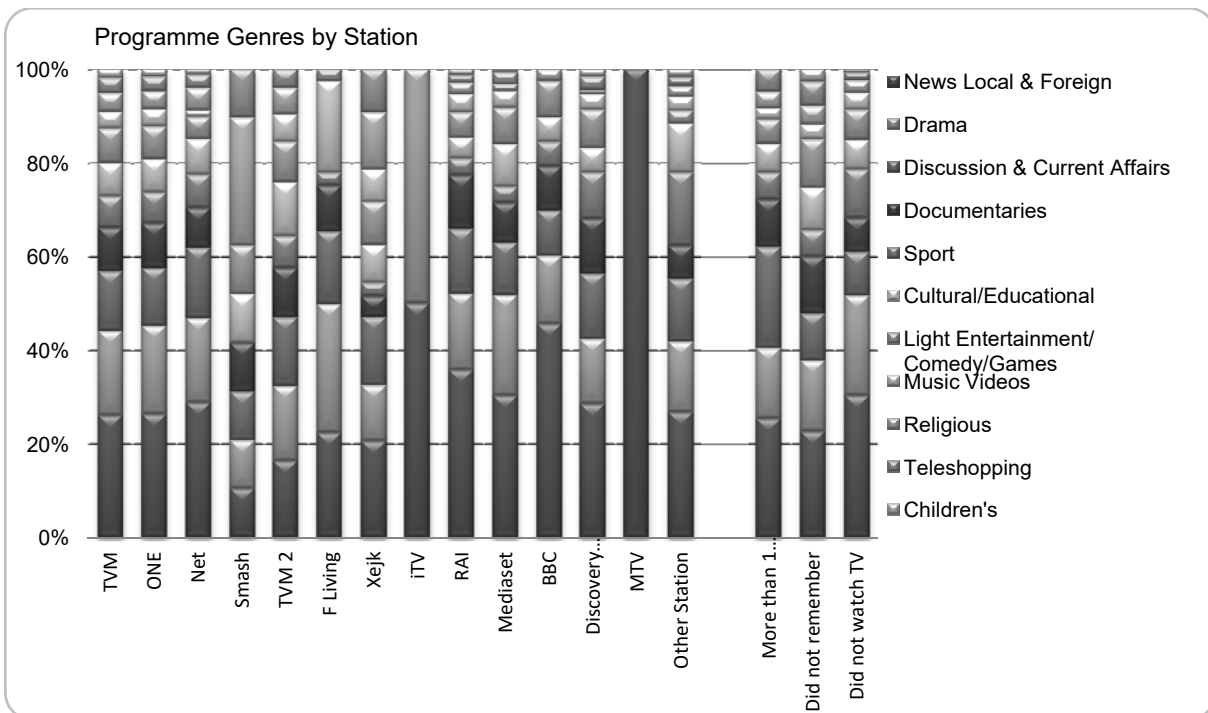

The replies given to this question were also cross-analysed against the broadcasting station that had been followed the day before by respondents.

This analysis in no way reflects the programme genres broadcast on each TV station. It only gives the preferred genres of each station's viewers. Cases in point are certain preferences

of viewers of Xejk and iTV (a teleshopping channel).

In general, the overall ranking for the different genres follow throughout the broadcasting stations especially for the three top genres – Local & Foreign News, Drama, and Discussion programmes.

3.4. TV AUDIENCE SHARES

Respondents were asked to indicate at what time they had watched television and for how long. These replies were analyzed by half-hour slot, for each TV station, and for all the days of the week while also taking into consideration all the multiple replies received.

TVM had the highest average amongst all stations for all the weekdays from Mondays to Sundays [0.907%]. Not only that, but TVM also had the highest average amongst all the stations on Wednesdays [1.020%], Saturdays [1.163%] and Sundays [1.245%].

3.4.1. Average Audiences

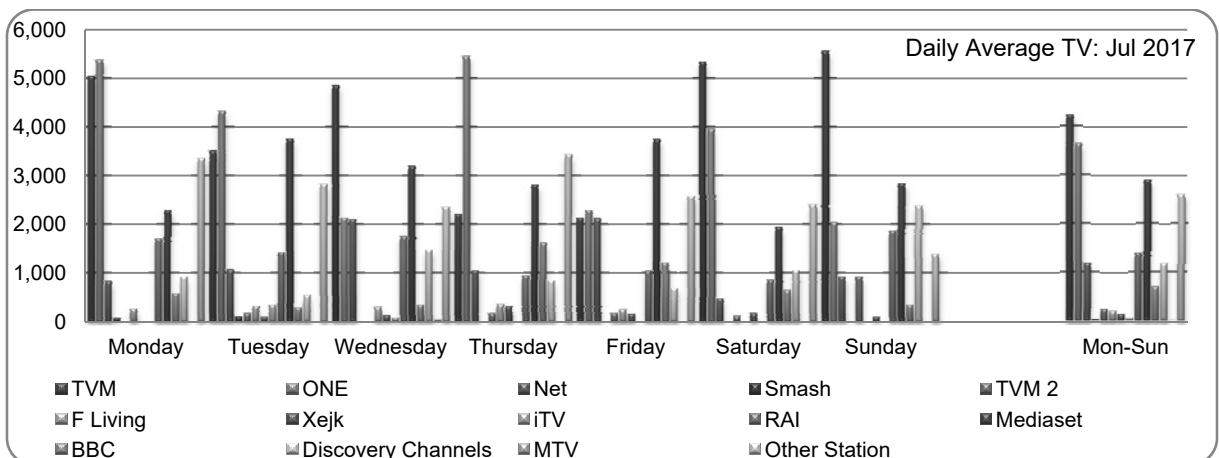

The first analysis is that of calculating the average audience share of each TV station for each week-day. This is the average of all the audiences for each particular station by half-hour slot.

ONE had the highest weekly average of 0.780% and attained the highest average amongst all stations on Mondays [1.142%], Tuesdays [0.918%], and Thursdays [1.147%].

Mediaset stations had the highest average amongst all stations on Fridays [0.793%].

3.4.2. Peak Audiences by Station

Another indication of a TV station's popularity with its audiences is its highest amount of audiences obtained at any particular half-hour slot of each weekday.

TVM had the highest peaks amongst all stations for all the weekdays from Monday to Sunday. The highest peaks attained by TVM were in this ranking order: Wednesdays [16.993%] – Mondays [16.697%] – Thursdays [14.248%] – Saturdays [12.513%] – Sundays [12.038%] – Tuesdays [11.963%] – Fridays [11.568%]. Of the local stations the next highest peak attained was that by ONE on Mondays with 110.054% followed with that of Net TV on Fridays [4.597%].

Of all the foreign stations the highest peak was that of Mediaset Channels on Fridays with 6.0%.

3.4.3. TV Audience Shares by Half-Hour Slots

Audiences were registered for all the half-hour slots. Audiences throughout the day started picking up slowly at 8:30am with 0.97% rising gradually to 2.181% by noon; peaking up to 4.577% at 2:00pm and re-peaking to 5.498% at 6:00pm. Audiences rose sharply from those at 7:30pm [13.819%] to 21.382% at 8:00pm where the highest audiences were reached.

Audiences were maintained and peaked to 15.821% by 9:00pm; falling to 10.867% at 10:00pm; and further to 2.078% at midnight.

The following figure maps in detail the total daily audience shares for TV stations cumulative at half-hour slots:

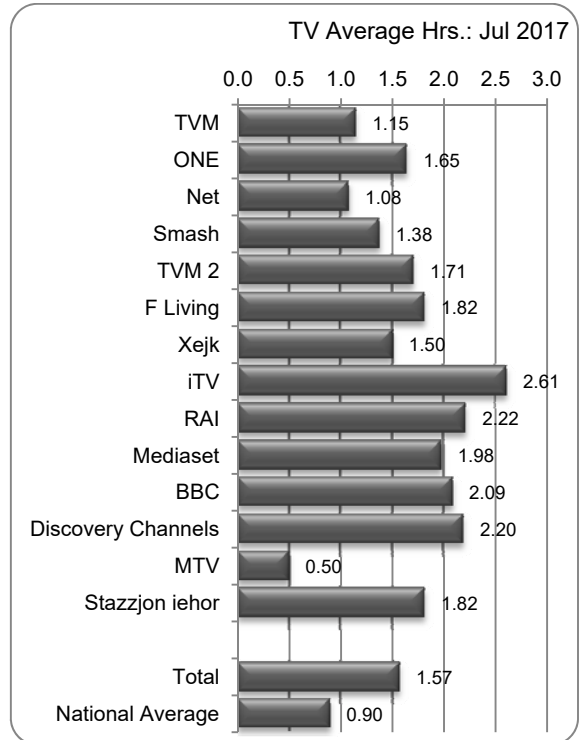

3.4.4. Daily Average Hours of TV consumption

This average gives the amount of time that each viewer has spent following each TV station. This is derived from the total number of hours that consumers watched television divided by the total number of viewers of each broadcasting station.

This average is susceptible to outliers especially where broadcasting stations have registered a small amount of viewers who logged on to that particular station for long time. However, considering also the demographical nature of TV viewers for each particular station, the average amount of time spent by viewers of each station gives an indication of viewing patterns amongst the population.

While TVM attracted the highest percent of viewers [33.06%] followed by ONE which attracted the next percent [17.072%], the time spent on average by ONE viewers [1.65hrs] is 43% higher than those of TVM [1.15hrs]. The average amount of hours over all TV viewers amounts to 1.57hrs per viewer and over the whole of the population aged 16 years and over, these amounts to 0.90hrs.

3.4.5. TV Stations Audience Share

Taking all the audiences for all the weekdays, the daily average TV's audience share attained by each broadcasting station is shown in the figure below.

Overall, TVM ranked first with 23.0%; followed by ONE with 19.8%, and Net TV with 6.4%. Of the foreign stations, Mediaset stations ranked first with 15.7%, followed by RAI with 7.5%.

4. CHILDREN WATCHING TV

At the end of the telephone questionnaire respondents were asked whether they have children between 9 and 15 years old, and if in the affirmative, respondents were then asked what type of programme their children liked to watch on television.

4.1. Children 9-15 years old

Out of all the respondents 12.1% replied that they have children between 9 and 15 years old [≈45,000] who regularly watch television. On the other hand another 3.3% [≈12,300] stated that although they have 9-15 year olds their children do not watch television.

Does not watch TV				
	Total N	16-30	31-50	51-70
Males	5,270	565	3,476	1,229
Females	7,068	335	6,332	401
[N]	12,338	900	9,808	1,630
[Row %]	100	7.3	79.5	13.2

4.2. Programmes followed by 9-15 year olds

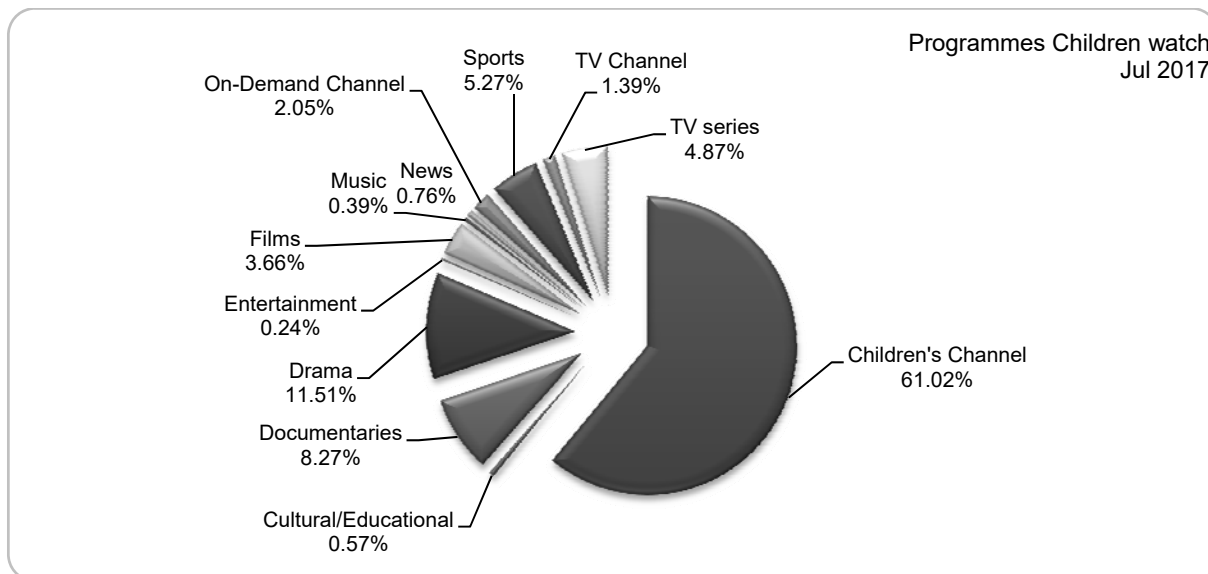

The responses were categorized into twelve difference categories and analysed by the age groups of respondents as follows:

The most quoted were Children's Channels [61.02%]; followed by Drama [11.51%] and Documentaries [8.27%].

Children whose parents are from the 16-30 age group are reported to follow Drama [71.1%]; Children's Channels [9.67%]; Sports [9.61%]; and TV series [9.61%].

Children whose parents are from the 51-70 age group are reported to follow Children's Channels [65.314%]; TV series [15.39%]; Drama [9.65%] and Entertainment [9.65%].

The range of programmes of children whose parents are from the 31-50 years old have a wider range of programmes which they like to follow. Nearly two-thirds follow Children's Channels [63.95%]; another 8.99% follow Documentaries; 8.02% follow Drama; and the rest follow a range of programmes.

APPENDIX A: QUESTIONNAIRE

 NATIONAL STATISTICS OFFICE • MALTA	Respondent ID: _____ Tel No: _____
	Date of Survey: _____
	Name & ID of Interviewer: _____

Jiena (għid ismek) mill-Uffiċċju Nazzjonali ta' l-Istatistika. Bhalissa qegħdin nagħmlu sħarriġ f' isem l-Awtorita' tax-Xandir dwar ir-Radju u t-Televiżjoni. L-istħarriġ jieħu madwar 5 minuti biex jitlesta. Mill-familja tiegħek ġie magħżul/a (għid isem) bil-polża biex jieħu/tieħu sehem fl-istħarriġ. Nista' nkellmu/nkellimha bhalissa?

1. X'TIP TA' PROGRAMMI THOBB TARA FUQ L-ISTAZZJONIJIET LOKALI TAT-TV?

	Code
Aħbarijiet [Lokali u Barranin]	(1)
Diskussjonijiet u Grajjiet Kurrenti	(2)
Reliġjużi	(3)

Radju tal-Komunita'	(15)						
Stazzjon ieħor	(16)						
(Specifika - nizzel kemm stazzjonijiet tal-komunita' kif ukoll barranin – Code 15 u 16							
M'hemmx stazzjon wieħed	(18)						
Ma niftakarx	(19)						
Ma smajtx 28adju	(20)						
M'ghandix sett tar-Radju	(21)						
Minghajr risposta..	(22)						

5. Biex tisma' r-radju, inti ghandek DAB+?

IVA [Yes]	(1)
Le [No]	(2)
Ma Nafx	(3)
M'ghandix sett tar-Radju	(4)
Minghajr risposta..	(5)

Jekk ghandek id-DAB, dan biex tisma' kontenut lokali jew kontenut ta' Barra.

The signal will either be brilliantly crisp and clear or it won't be there at all.

Meta taqleb minn stazzjon għall ieħor l-istazzjon ikun car mill-ewwel jew ikollok xi interferenzi?

With DAB, you never need to remember a station's frequency. The display on the radio shows the station names alphabetically.

Bid-DAB+ aktar faċli li taqleb minn stazzjon għall ieħor ghax juri l-istem ta' kull stazzjon u ghandek aktar stazzjonijiet ixandru fuqu.

Issa se nistaqsik xi ftit mistoqsijiet dwarek innifsek:

6. Inti raġel jew mara?

R (1)	M (2)
-------	-------
7. Kemm għandek eta? _____
8. F' liema lokalita toqgħod? _____

Għandek tfal bejn id-9 u l-15 il-sena?

	Code
YES [IVA]	(1)
NO [LE]	(2)
No Reply	(3)

Jekk IVA x'tip ta' programmi jħobbu jaraw?

	Code	
Option 1	(1)	
Option 2	(2)	
Option 2	(3)	
Do not watch TV	(4)	
No Reply	(5)	

Niżżel anke ismijiet ta' stazzjonijiet bħal per eżempju Baby TV, Boomerang, eċċ

Grazzi tal-ħin tiegħek. Biex infakkrek jiena (għid ismek) mill-Uffiċċju Nazzjonali tal-Istatistika.

APPENDIX D: TV AUDIENCES BY HALF-HOUR SLOT – MONDAY TO SUNDAY

A “nil” record only means that audiences were less than 2000; and not that there were zero audiences.
